SpaRing Fountain

WaterWall  
Water-jet cut tile logo.

Double Sheeting Waterfall  
Raised full-tile custom spa.

Bradford Products has over 20 years experience in the manufacture of stainless steel and ceramic tile aquatic vessels. During this time, our team of designers and engineers have developed a wide variety of unique and innovative water features. From gentle, cascading waterfalls and soothing massage showers to stunning vanishing edges and WaterWalls, our distinct approach on moving water has created wide appeal and has given much satisfaction to our customers. 316L Stainless Steel combined with ceramic tile, stone, glass mosaics and other exotic materials creates a look that is modern, yet timeless. Beautiful - durable - made to last a lifetime!
