Pools	Heated Loungers
Hot Tubs	VitalityTubs
SwimSpas®	Experience Showers
Yacht Spas	Ice Fountains
Water Features	Therapy Pools

Bradford provides SteamRooms® constructed in high quality stainless steel that give day spa resorts a reliable, longlasting, and luxurious amenity. Incorporating our SteamRoom® into your resort spa offers many advantages over traditional construction. The longevity and durability of stainless steel is widely known as a hygienic, nonporous finish. It will not peel, crack, or swell during long-term exposure to moisture and on-going temperature changes. Our SteamRooms® are handmade by skilled craftsmen from start to finish, which provides a closer attention to detail than your average assembly line manufacturer. Choose from a wide range of interior finish materials, such as glazed ceramic tile, stone, marble, or travertine tile. Partner with our spa design team on your custom motif and culturally influenced SteamRoom® to create an unforgettable spa experience.

### EQUIPMENT
