# MODULAR STAINLESS STEEL SPORT POOLS

FOR COMPETITION, TRAINING AND LEISURE

VERSATILE

DURABLE

LIMITLESS

AQUATIC

## PROUDLY MADE IN THE USA

Stainless steel panel pools are a reliable, long-term alternative to traditional competition pool construction. Complete with a durable PVC membrane for added flexibility and reliable water-tightness, Bradford sport pools consistently surpass client expectations and sport performance. We're experts in modular pool fabrication, partnering with aquatic designers, pool builders, and contractors to bring your vision to life.

### THE STAINLESS DIFFERENCE

**An ideal solution for renovations of existing pools or new construction.**

- Flexible fabrication to provide turn-key pool solutions
- Faster installation on-site, with less downtime
- Reduced maintenance and operational costs versus traditional pools

**Fully welded** continuous stainless steel gutter system

**Integrated** returns in gutter reduce floor penetrations while maintaining a smooth swimming area

**Freestanding or backfilled** support structures allowing limitless applications

**Patented chloramine extraction** system integrated into the gutter significantly improves indoor air quality

**Stainless steel** movable bulkheads

## PERFORMANCE-FOCUSED

- Fully-customizable to virtually any client need or site demand
- Designed to meet or exceed all state and local health codes, in accordance with rigorous NCAA, FINA and NFSHSA regulations
- International design, engineering and construction collaborations

**Custom fitted** and welded 60 mil reinforced PVC membrane ensures full water-tightness, reducing the risk of leaks over time

**Thicker 12 gauge** panel walls and support structures for increased rigidity and dimensional stability

**Fully sealed** panel seams provide redundant water-tight protection
